# 1 Polls site

## 1.1 Polls site directory

- `/polls_site/`
  - `/__init__.py`
  - `/asgi.py`
  - `/urls.py`: file contains the URL routing configuration for the project, including paths to various applications such as `main_page`, `users`, `API`, `polls`, and the Django admin site.
  - `/settings.py`: file contains various settings for the project, including installed apps, database configuration, and authentication settings using the Google OAuth2 provider.
  - `/wsgi.py`
